**WINCHESTER-FREDERICK COUNTY
INDUSTRIAL SERVICES
DIRECTORY**

The 2007 - 2008 Industrial Services Directory is an alphabetical listing of companies in the Winchester-Frederick County area that provide industrial services to manufacturing and commercial industries. The services covered include industrial maintenance, electrical, heating/ventilation/air conditioning, pipe-fitting and machine shop.

This Directory reflects only industrial service firms. There are hundreds of other manufacturing, wholesaling and distribution, retail, transportation, and other companies in Winchester-Frederick County. For further information on these other companies, please contact the Commission at the information provided below.

This Directory is based on data collected from both mail and telephone surveys developed by the Economic Development Commission. Each company indicated that they wished to be included in the Directory. This is not an exhaustive list, but is made up of companies that have purposefully responded to the survey soliciting information regarding their services. In compiling this data, companies were asked to indicate their competencies in each category to perform industrial level work. The Winchester-Frederick County Economic Development Commission is not responsible for what competencies each company indicates it is capable of performing. While every attempt has been made to provide accurate information, there may be discrepancies. Please contact the Economic Development Commission to report any missing or inaccurate data.

- Computer Aided Design
- EDM wire
- Lathe, CNC
- Honing

Injection Molding:

- Injection Mold Press
- Prototype Products
- Product Sampling

- Tooling Design
- Toolmaking
- General Mold Repair

- Production Runs
- EDM Mold Repair

Cutter Grinding:

- Metal cutters
- Custom cutter tools

- Carbide
- Wood cutters

- Form Grinding

Punch Press:

- Product Design
- Production runs

- Tooling design

- Toolmaking

Custom Machinery Fabrication:

- Hydraulic
- Pneumatic

- Electrical
- PLC automated

- Manufacturing
- Conceptual design

General Fabrication Services

- Sheet metal
- Repair
- EDM service
- Press Brake
- Bar Rolls
- Structural

- Welding
- Consultation
- Plate Rolls
- Burn Table
- ASME pressure vessel
- High volume machining

- Gen Fab Heat treating
- In House engineering
- Angle Rolls
- Iron Worker
- On site repair
- Plate Shear

Work Size Capabilities

- Rail siding shop

0 Swing Capacity (inches)
 0 Shear capacity (gauge)

0 Lift Capacity (tons)
 0 Rolling Capacity (gauge)

Materials Capability:

- Aluminum
- Stainless

- Titanium
- Steel

- Cast Iron
